TO THE WEST! TO THE WEST!
Before making your arrangements to follow the advice of the "thousands who have already gone," it would be well to consider what has been done to make the journey to your "Homes in the West" as pleasant and free from danger as human skill and foresight can accomplish.
By consolidation and construction, a road has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the future great City of the world." This line, the
ST. LOUIS & SOUTHEASTERN RAILWAY,
has, during the past year, earned an enviable reputation by its smooth track, prompt time, sure connections, and the magnificence of its passenger equipment. Its trains are made up of new and commodious day cars, provided with the celebrated Miller coupler and platform, and the Westinghouse air-brake.
It is positively the only line running Pullman Palace Drawing-Room Sleeping Cars through without change from Nashville to St. Louis. No other line pretends to offer such advantages, either in distance, time, or equipment. Why, then, journey by circuitous routes? Do not be induced to purchase tickets to St. Louis or the West by any other line, remember that
The "St. Louis & Southeastern" is the shortest, cheapest, quickest, best and only line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas, and all western points. It is also the "Chicago Shortest Line," via Evansville.
You can secure the cheapest rates for yourselves and your movables on application, in person or by letter, to CHARLES McCABE, Southern Passenger Agent, near College street Depot, Nashville, Tenn., or to the undersigned.
W. B. DAVENPORT,
General Ticket Agent, St. Louis.

WHEREAS, The people of North Carolina have been abundantly blessed during the past year, and the earth hath yielded bounteously of all the products of its soil so that the garner of the husbandman are filled to overflowing; and the industrious mechanic has realized a rich reward for his labor, and every class of our population prospered in all laudable enterprises; and WHEREAS, all laudable enterprises and good will above all, fraternal feelings and good will have in a great measure been restored in our midst, and no plague, pestilence or famine has visited our State; Now, therefore, as it becomes us, a grateful people, to render thanks to Almighty God for these and numerous other blessings showered upon us in His great mercy, I, Tod R. The Evening Post.

WILMINGTON, N. C.

Tuesday, November 18th, 1873.

A PROCLAMATION.

By the President of the United States of America.

The approaching close of another year brings with it the occasion for renewed thanksgiving and acknowledgment to the Almighty Ruler of the Universe for the unnumbered mercies which He has bestowed upon us.

Abundant harvests have been among the rewards of industry. With local exceptions health has been among the many blessings enjoyed. Tranquillity at home and peace with other nations have prevailed. Frugal industry is regaining its merited recognition and its merited rewards.

Gradually, but, under the providence of God, surely, as we trust, the nation is recovering from the lingering results of a dreadful civil strife.

For these and all the other mercies vouchsafed, it becomes us as a people to return heartfelt and grateful acknowledgments, and with our thanksgiving for blessings we may unite prayers for the cessation of local and temporary sufferings.

I, therefore, recommend that on Thursday, the twenty-seventh day of November next, the people meet in their respective places of worship, to make their acknowledgments to Almighty God for His bounties and His protection, and to offer to Him prayers for their continuance.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this 14th day of October, in the year of our Lord one thousand eight hundred and seventy-three, and of the independence of the United States the ninety-seventh.

U. S. GRANT.

By the President:

HAMILTON FISH, Secretary of State.

Radicalism.

We may expect a great increase in Radicalism in the country as one of the results of the financial stringency. Although the Republican party has received in derision it has not completely merited, the designation of Radicals from its political enemies. It did strike at the root, and thoroughly eradicate some of the evils which beset this country, it cannot be said now to be Radical. Indeed, it is eminently Conservative;—in wishing to keep the public concerns in the state in which they at present are, they are the only Conservatives in politics which exist in America.

By Radicalism we mean a subversion of some standing institutions; or the enactment of laws whose effect will be to make the lines drawn between capital and labor less distinct. In America we have no fears that a money panic can seriously affect the security which the law gives capitalists. The aim of every laborer is to ultimately become a capitalist, and any movement of the laborer which diminishes or destroys the security of capital, is a suicide of hope. But, nevertheless, much discontent must arise when the working strength of the suspended manufacturers find themselves the victims of a financial stringency. Although their employers are also victims, these unemployed men will see those employers living in luxury, while they themselves are in want. These observations will have the effect of causing these men to make comparisons between themselves and the workingmen of Europe; a comparison most unjust, for here an illimitable field is open to industry in the cultivation of land, while there it is almost impossible for the soil to have a greater number of proprietors.

While Radicalism in Europe means progress in the right direction, here it is one of the crudities of agrarianism. Perhaps the time may come when agrarianism may be a good thing; but in America, and in this generation, it is only an expression of selfishness and ignorance. It is probable that the present difficulties will be passed without much expression of these discontents; but their growth will be fostered, and the strength of Radicalism will receive a permanent increase by the panic of 1873.

Among the important acts which should be brought to the attention of the Legislature, is one in relation to the registration of deeds. It has been the custom of Legislatures for the past fifty years to enact, that deeds be registered to show title and, then, to extend the time for two years. This has been so invariably the rule that no one pays particular attention to having deeds recorded, except in important city cases, and the consequence is, it is almost an impossibility to trace a title in this State. We believe we are not ex-

aggerating when we state that no Attorney at this Bar, can make a clear abstract of title for one half of the land in this country. As the real estate in this city is constantly increasing in value, it behooves us to have every safeguard thrown about the transfer and the proper registration of every tract of land in this vicinity. Let deeds be placed upon the same footing as mortgages, and the title pass at date of registration, and there will be more safety in real estate transactions. We hope some such law will be enacted to go into effect at an early day.

EDITORIAL BUDGET.

The following dispatches taken from the Washington Republican gives further particulars in relative to Cuban affairs.

HAVANA, via KEY WEST, Nov. 15.—The following account of events at Santiago de Cuba has been received here: On Friday morning, the 7th, thirty-seven of the crew of the Virginus were brought on shore and taken to prison, to remain there until their execution, which was ordered for that afternoon. Capt. Fry, a noble-looking old man, fully a head taller than the rest of the crew, when he met his men on the wharf previous to the march to the prison, he saluted them all. The salute was returned with affection. At 4:45 p. m., Capt. Fry and thirty-six men and officers were publicly shot despite the protest of all competent foreign authorities. The marines were seven minutes killing the prisoners. It seemed as if they would never finish. At last the sailors marched off and the troops filed past the long row of corpses; then the dead earts were hurried up and loaded indiscriminately with the mangled remains.

The American consul has done all that could have been done; indeed, it was threatened that his exequatur would be withdrawn for his exertions in behalf of the prisoners. In an interview with Gen. Burrill, this officer yelled at him and otherwise treated him disrespectfully. The British consul also made an ineffectual protest against the executions. It is reported that sixteen of the victims were British subjects.

THE FEELING AT HAVANA.

HAVANA, via KEY WEST, Nov. 15.—Great anxiety is manifested here to see the comments of the New York press upon the capture of the Virginus and the shooting of the prisoners.

There is general feeling that it is desirable to have all the prisoners executed as quick as possible, before the government of Spain or any other power can get a chance to intervene, although some of the better feeling portion of the people deprecate haste, and feel that it may lead to serious results.

The *Constancia* newspaper says: "No matter how much our country has fallen in the last four or five years, the Spanish people have not become degraded to such an extent as to be frightened by those who might have to pay dear for their temerity and insolence in event of intervention. We lament the bad situation of affairs of our country, but are far from being daunted by foreign complications. Maybe we ought to desire them in order to liberate us from miserable party intrigues. Spain is not degenerate. All bad passions will immediately become quiet when there is prospect of a foreign war. The stronger powers know this, and their intriguing politicians ought not to forget it. Unfortunately the Spaniards give more importance to the latter than they merit."

The *Constancia* also says: "When the news of the capture of the Virginus was received here it was thought that something would be tried to prevent the pirates from receiving their just chastisement."

The address of General Burrill to the soldiers is very bombastic. Describing the chase and capture of the Virginus, he says:

"The Tornado belched forth flames instead of smoke. Going at her best speed, she finally came up and captured the Virginus, which was taken possession of with repeated cries of 'Vive Espana!' from the Tornado's valiant crew, without the slightest resistance from the others. One hundred and sixty-three men delivered themselves up, having cowardly thrown overboard during the chase the arms they ought never to have grasped, and the military equipage confided to them to defend their ignoble cause. This goes to show and confirm, the poverty of our enemies' efforts, and demonstrates their impotence against the armies of Spain which Providence manifestly favors."

The editor of the *Cleveland Leader* brought his wife and eleven children—all boys and girls—to "Eli Perkins" lecture on free tickets, and then went home and deliberately wrote and punctuated the following: "A poor man fell over the gallery last night while 'Eli Perkins' was lecturing in a beastly state of intoxication."

The following is a summary of naval news published Saturday: Orders were sent from the Navy department to the Commander of the United States steam sloop of war, *Kansas*, at Brooklyn Navy Yard, to proceed direct to Santiago de Cuba. She carries three heavy guns, and is considered one of the best of the third rate vessels of the navy. The *Monongahela*, which carries eleven guns, sailed from Newport on Sunday last, to join the North Atlantic Squadron. The *Ossipee*, carrying eight guns, is now at Newport, taking on board torpedoes, and will sail in a few days. The *Powhatan* is at Brooklyn, and will be ready for sea at a day's notice. She carries seventeen guns. The *Junia*, of eight guns, can proceed to sea tomorrow, if necessary. The *Worcester*, of fifteen guns, the flagship of the North Atlantic Squadron, is now taking on board provisions and munitions of war at Norfolk, and will sail for Havana on Saturday. The *Ticonderoga*, of eleven guns, is now on her way from the Brazilian Squadron, to join the fleet in the West Indies. Orders were yesterday sent to the Boston Navy Yard to have the *Brooklyn*, carrying twenty guns, fitted out as soon as possible. The *Tennessee*, carrying twenty-three guns, now at New York, is reported, can be got ready for sea in three weeks. The *Canandaigua*, of ten guns, now at Philadelphia, needs but a few days' work to fit her for sea. The *Colorado*, Franklin and Minnesota could be fitted out at New York in three weeks. They are the largest vessels of the navy. The *Colorado* and *Minnesota* each carry forty-five guns, and the *Franklin* thirty-nine. Of the iron-clads, the *Saugus* is now at Key West, in perfect condition. The *Manhattan* and *Mahopac* both go into commission on Monday next. The *Ajax*, at Philadelphia, will be ready in ten days, and there are three other monitors that can be ready to sail in four weeks.

To-day, despatches were sent to the commanders of every navy yard, to ascertain just what force would be necessary to fit out every vessel now in ordinary, and what was the shortest time in which it could be done.

Large quantities of coal have been ordered to Key West, and precautionary steps taken to have everything in readiness in the event of the government being obliged to act promptly and firmly. All the available vessels, it is understood, will be ordered to rendezvous at Havana, and a general surveillance of the Cuban coast will be at once begun. To this extent the Secretary of the Navy is ready to meet the question of protecting American interests in Cuba. Of course no hostile act is contemplated, but the moral effect of a large fleet of American war-vessels in Cuban waters, it is believed will have a soothing influence over the barbarous Spaniards on the island.

A negro in Boston complained at a police station that a brother colored man had broken a chair all to splinters over his head. Being told there were no marks on his cranium, he said: "No! 'e didn't make no marks, but 'e smashed de chair all ter pieces, and de chair belonged ter me."

THE SUN.

WEEKLY, SEMI-WEEKLY, AND DAILY.

THE WEEKLY SUN is too widely known to require any extended recommendation, but the reasons which have already given it fifty thousand subscribers, and which will, we hope, give it many thousands more are briefly as follows:

It is a first rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always presented in a clear, intelligible, and interesting manner.

It is a first rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can offend the most delicate and scrupulous taste.

It is a first rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

It is a first rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no color. It fights for principle, and for the election of the best men to office. It especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country, and to the securing of republican institutions altogether. It has no fear of knaves, and asks no favors from their supporters.

It reports the fashions for the ladies and the markets for the men, especially the cattle markets, to which it pays particular attention.

Finally, it is the cheapest paper published. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have THE WEEKLY SUN at this rate. Any one who sends a single dollar will get the paper for a year.

We have no traveling agents.

THE WEEKLY SUN.—Eight pages, fifty six columns. Only \$1 00 a year. No discount from this rate.

THE SEMI-WEEKLY SUN.—Same size as the Daily Sun. \$2 00 a year. A discount of 20 per cent. to clubs of 10 or over.

THE DAILY SUN.—A large four page newspaper of twenty eight columns. Daily circulation over 120,000. All the news for 2 cents. Subscription price 50 cents a month, or \$5 00 a year. To clubs of 10 or over, a discount of 20 per cent. Address, "THE SUN," New York City.

price is therefore placed so low as to be
within the reach of all. It contains the

LATEST NEWS,
up to the time of going to press,

TELEGRAPHIC,
BY MAIL,
COMMERCIAL
AND LOCAL.

It should be in the hands of every man
who desires to know what has
transpired during the day,
and, as it aims to give

RELIABLE INTELLIGENCE,
its publisher hopes it will prove a wel-
come guest in many families.

THE POST
is sprightly without being sensational,
and it carefully excludes all objectionable
incidents and reports calculated to of-
fend the sensibilities of the most fastid-
ious. As an

Advertising Medium
it claims to be first class. It has a good
and constantly increasing circula-
tion, and is read by almost
every business man
in the city.
Politically the Post is

UNSWERVINGLY REPUBLICAN.

Its editor having been a consistent mem-
ber of that party since 1855, through
its vicissitudes and triumphs, he claims
to speak advisedly when advocating its
principles. He is not, however, an "extrem-
ist," and accords to others what he
claims for himself, the right of free
thought and of free speech.

THE ADVERTISING RATES OF
the Post, like its subscription price, are
at liberal and at living prices, as an ex-
amination of them will show, and it
bespeaks a share of public patronage.

THE EVENING POST
is closely identified with the local wel-
fare of the Cape Fear region, and the
believers in progress, whether

EDUCATIONAL,
AGRICULTURAL,
MECHANICAL, or
COMMERCIAL,
will find an enthusiastic ally in THE
Post.

THE POST
is opposed to monopolies, but in favor
of internal improvements, and a firm
believer in the patronage and support
of home enterprises and institutions.
